– Students with a learning difference or disability
– Students who are first in their family to attend higher education
– Commuter students
– Student parents

The scheme runs from October to May and only requires a commitment of two hours per month. At the end of the scheme, the mentors’ and mentees’ contributions and achievements are celebrated at a special event.

Joining Beyond Barriers was the best decision I made! Thanks to the scheme I was given the opportunity to work with my mentor to achieve my goals and discover what is out there for me once I graduate. This journey and experience have been remarkable. He helped me see my true potential and I am truly honoured to have worked with such a great person.

Anell Enning, International Relations with Television Broadcasting Media student

Mentoring has been a richly rewarding experience. It was a great opportunity to help my mentee along her career path a little and was satisfying to guide her toward the future she is aiming at. It has been great to use my skills and experience in a slightly different way, to watch someone progress and grow, and help the next generation of graduates.

Sally Findlay, Managing Director Recognition Express Mid Surrey
